

4th Edition Traveller

Traveller: 4th Edition carried the **Traveller** role-playing game system forward to its fourth edition: into the early years of the Third Imperium. This disk contains the canon **T4** materials: the core rules, books, supplements, and adventures. **Traveller4** produced more than 20 titles in its series, with at least one (**Aliens 1**) not actually seeing print before publisher **Imperium Games** closed down. This disk includes all of the canonical **T4** titles (including the unpublished **Aliens 1**), plus accumulated errata for the series, and a gallery from signature artist Chris Foss.

Worthy of more than little note is the follow-up project. Designer Marc Miller embarked on a project to improve **Traveller4**: initially to correct the errors, errata, and stilted writing, but ultimately to create what would be truly **Marc Miller's Traveller**, the ultimate **Traveller5**.
